

CATHOLICS FOR CHOICE

INVITE: Join young Catholics for Choice (yCFC)

Young Catholics are having **sex**. We are using **contraception** and **condoms**. We are having **abortions**. We are **bisexual, gay, lesbian, straight and transgender**. And none of this makes us any less Catholic than conservative Catholics who speak out against us. The truth is, they don't represent what the majority of Catholics—especially those of us in our 20s and 30s—think about sex.

It comes down to Catholic teaching on conscience. Basically, every individual has the right and responsibility to follow his or her own conscience—and respect others' right to do the same. With conscience and respect, good Catholic sex is not only possible, it's already happening.

Catholics for Choice is launching our newest endeavor—**young Catholics for Choice (ycfc)** — a group spearheaded and organized by young adults, which will provide a space for young, prochoice Catholics (and non-Catholics) to **dialogue, share information** and **take action**.

There is no doubt that the church hierarchy has a negative impact on sexual and reproductive health and rights, especially through its influence on public policy. If you are looking for a space to dialogue, share information and take action to counter the bishops' impact, email yCFC@CatholicsForChoice.org to **join the yCFC listserv**. Please provide your name, contact information and a brief sentence or two telling us why you are interested.
